

INTERNET SERVICES

Our portfolio of Internet Services offers a range of white-labelled, carrier-grade internet services designed to meet the needs of your customers, wherever they may be in New Zealand.

From basic, contended ADSL/VDSL broadband to uncontended direct internet access (DIA) for mission critical data and applications, we have a solution to suit.

Our Internet Services come with unlimited data, a 24/7 self-service portal and a 12-month contract term, which builds annuity revenue into your bottom line.

Internet to suit

Cater to the needs of all your customers, wherever they are in New Zealand with services ranging from ADSL to DIA.

Unlimited data

Avoid bill shock for your customers thanks to no data caps.

Complete control

Run internet servers, including web servers, email servers and VPNs with Static IP addresses.

24/7 self-service

Log faults, enter orders and receive updates 24/7 with a self-service portal.

Key Features

Choose from the following three service options

Wholesale Broadband

Best suited to small offices with low traffic requirements.

- Best efforts, asymmetrical, contended service
- Delivered on ADSL, VDSL or fibre
- Naked / no phone line
- Unlimited data - no overage charged
- Modem included
- Self-install - simply plug and play
- Single static IP address available on request
- Can be bundled with SIP Voice on same single access (OTT or QoS)

Choice of plans:

- **ADSL Unlimited:** 5-20 Mbps download / up to 1 Mbps upload
- **VDSL Unlimited:** 15-60 Mbps download / 5-18 Mbps upload
- **UFB100 Unlimited:** 100 Mbps download / 100 Mbps upload
- **UFB200 Unlimited:** 200 Mbps download / 200 Mbps upload
- **UFBMax:** 700 Mbps download / 400 Mbps upload (minimum)

Wholesale Internet Services (WIS)

Best suited to businesses that have high-traffic requirements and require a managed service.

- Best efforts, symmetrical, 4-to-1 contended service
- Delivered on fibre
- Single VLAN flat rate service
- Mixed national and international traffic
- 4-to-1 contention
- Naked / no phone line
- Unlimited data - no overage charged
- Single static IP address (/31 P2P) provided by default, routable range on request
- Can be bundled with SIP on same access (QoS)

Choice of plans:

- **WIS30:** 30/30Mbps
- **WIS50:** 50/50Mbps
- **WIS100:** 100/100Mbps
- **WIS200:** 200/200Mbps
- **WIS500:** 500/500Mbps
- **WISMax:** 900/900Mbps

Wholesale Internet Services (WIS) Premium

Best suited to businesses that have high-internet traffic requirements and require a managed and non-contended (DIA) service.

- Dedicated access, symmetrical uncontended service
- Delivered on HSNS fibre or UFB fibre
- Access from end-user's internal IP networks
- Naked / no phone line
- Unlimited data - no overage charged
- Single static IP address (/31 P2P) provided by default, routable range on request

Choice of plans:

- **WIS10P:** 10/10Mbps
- **WIS30P:** 30/30Mbps
- **WIS50P:** 50/50Mbps
- **WIS100P:** 100/100Mbps
- **WIS200P:** 200/200Mbps
- **WIS500P:** 500/500Mbps
- **WIS1000P:** 1Gbps/1Gbps

Upload and download speeds are based on theoretical maximums and actual speeds may be affected by various factors including NZ and overseas networks, modem and computer technology, internet business wiring and other environmental factors.
